Minutes Pass

Learning Styles/Imposter Syndrome/Online Learning Campaign.

HH This is a very wide sweeping campaign, does anyone have a good idea for a name for it?

BC Something like “what works for me/what works for you”

ES Something about “Learning how to learn”

HH It’s also important that we legitimise the campaign by making sure our sources are all well researched and actually useful. I’ll put a google document up, and everyone can select different roles for themselves, and researchers can be in contact with poster designers – I’m a big fan of Canva, and we usually use that to make resources. The current plan is to start the campaign on the 9th of November. We could also organise some sort of event.

IA We could organise some sort of talk from an expert in learning enrichment – I’ve had a positive experience with this in the past.

Meeting adjourned, and followed by a Halloween quiz which GT & MP win
